Mental Health Research UK PhD Scholarships 2020

Mental Health Research UK and Schizophrenia Research Fund are pleased to announce our UK PhD Scholarships for 2020. The Scholarships aim to support the most promising research scientists who are asking challenging questions that will contribute to advances in mental health research.

Mental Health Research UK is seeking the best and brightest researchers and the Scholarships are open to UK Universities with a Department active in research in the fields of Schizophrenia, Children and Young People's Mental Health and Suicide prevention. Only one application for each Scholarship from each University is permitted.

We invite applications from UK Universities for three PhD Scholarships beginning September 2020. Click on the links for details.
