

## **Dr Heather C Whalley, Reader, University of Edinburgh**

Heather is a Reader in Neuroimaging at the Centre for Clinical Brain Sciences, University of Edinburgh, and is an affiliate member of the Centre for Genomic and Experimental Medicine at the University of Edinburgh. Her main focus of research is on the mechanisms underlying the development of major psychiatric disorders, particularly during adolescent development, using the latest genomic and neuroimaging approaches (genetic, epigenetic, and multimodal imaging).

She has previously been awarded a Royal Society Dorothy Hodgkin Fellowship, a John, Margaret, Alfred and Stewart Sim (JMAS) Research Fellowship from the Royal College of Physicians of Edinburgh, and an Edinburgh Scientist Academic Track (ESAT) Fellowship from the University of Edinburgh.
